Roadshow on Orangutan and Human Conflict Mitigation

Lost of forest means lost of habitat and foods for orangutan and also lost off access for local people to harnessing natural resources, and they are still take the other damaging like the exploding of wild animal pest witch destroy the plantation. Orangutan is one of them. Beside, orangutan is protected species. that is why hurting, catching and killing is crime. unhappily the people still don't understand about that information. Especialy people who live around the forest and palm oil plantation. As a concequences they often catch, hurt and also being killed. We need strategy to get good solution witch give adventegeous for the society and can also save the orangutan. BOS Nyarumenteng collaborate with Oranng Borneo and Yayasan Cakrawala Indonesia (Local NGO), have plan to make an activities, we called **Roadshow on Orangutan and Human Conflict Mitigation**
